

CONSTRUCTION NOTICE

March 2018

S Horton St stairway reconstruction between Sierra Dr S and Cascadia Ave S begins week of March 12

OVERVIEW

To improve pedestrian safety and accessibility, Seattle Department of Transportation (SDOT) crews are reconstructing the S Horton St stairway between Cascadia Ave S and Sierra Dr S. The existing 58-foot long stairway does not meet current accessibility standards.

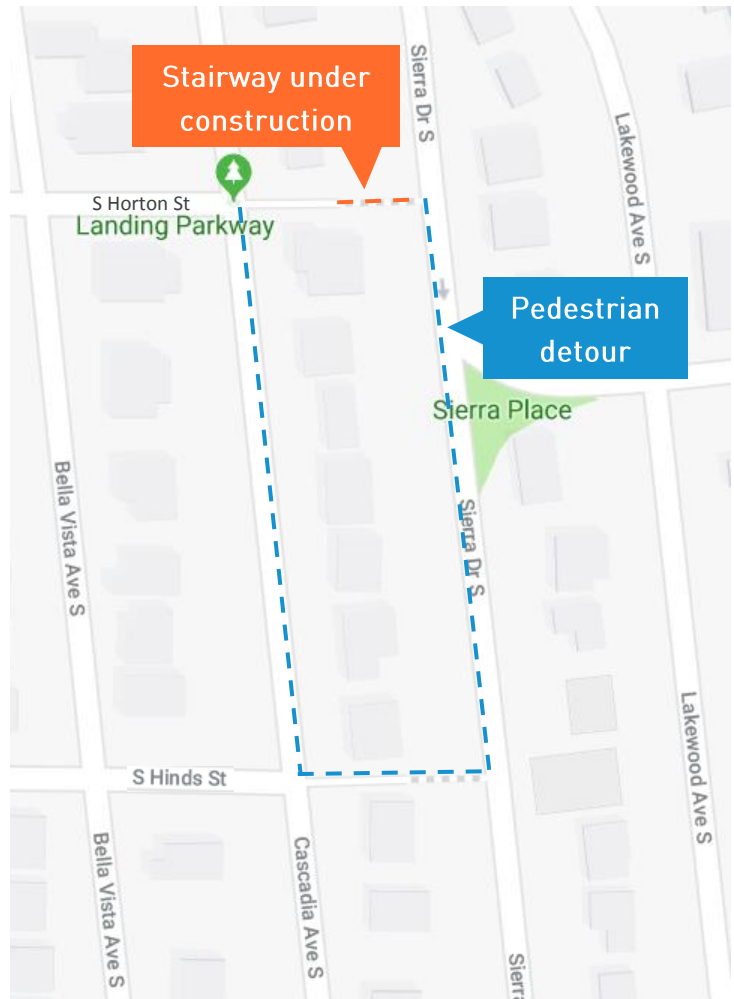

PROJECT IMPROVEMENTS

As part of this rehabilitation work, crews will:

- Remove and replace the existing stairs with a 5-foot wide staircase made of reinforced concrete, with even heights for each step
- Install new handrails on each side, with a second handrail at a lower height to accommodate adults and children

CONSTRUCTION SCHEDULE

Beginning as early as March 12, crews will begin preliminary work at the site. The stairway will be completely closed to pedestrian access during this work. Stairway restoration is scheduled to take approximately 2 months and is expected to reopen by Mid-May, weather-permitting.

Existing stairway. *This project is funded by the 9-year Levy to Move Seattle, approved by voters in 2015.*

WHAT TO EXPECT DURING CONSTRUCTION:

- Typical work hours between 7 AM and 3:30 PM on weekdays
- Temporary pedestrian detours
- Noisy work activities, including concrete breaking and backup alarms required for safety
- Temporary lane restrictions at top and bottom of stairway during work
